## **WOMEN'S BASKETBALL**

### **1981-82 Outlook**

"All I want to do is get this thing off the ground," Lady basketball coach Joe St. Andre' stated. "Centenary's Ladies have never won a game before. All I have to do is win one game and I'll have improved the program. But, what I'd really like to do is play .500 the first time out."

Centenary organized a women's basketball team last year, but the team was made up of non-scholarship players, namely students who were eager to play women's basketball. All has changed since St. Andre' came aboard last February.

For Joe's Ladies, things are looking good. Although Joe will only have 11 girls when they begin the season November 28 at Ouachita Baptist in Arkadelphia, Arkansas, they are a group of fine women and they all come from top notch programs.

Joe will have the nucleus of a 24-4 team with four players coming from Panola Junior College. The four Ladies, Tempie Ratcliff, Zebber Satcher, Nancy Hultquist and Kathy Messer are all proven winners.

In addition, St. Andre' has signed three other junior college prospects for Centenary's first-time women's basketball team. They are Penny Davis from Cook County Junior College, Carla Hutchins from Kilgore Junior College, and Linda Howard from Tyler Junior College.

To round out Joe's first-year recruits, four freshmen were added to build the program from the bottom up. Tamiko Frank of Bossier, Amy Slaton of Haynesville, Wendy Thomas of Plain Dealing Academy and Mary Jo Monzingo of Bossier Academy.

"Their attitude has been super," St. Andre' said. "As far as the girls are concerned, I think they are going to be surprised when the season gets under way. Right now we are a little short on numbers, but the Ladies make up for it with their dedication and hard work."

## DR. DONALD A WEBB

### CC President

It is certainly a tribute to the Centenary athletic department to have such a strong supporter as they do in Dr. Donald A. Webb.

Dr. Webb takes the necessary time from a busy schedule on campus and in the community to stay constantly abreast of Centenary athletics.

"The thing that amazes me about athletics," Webb said, "is that more than

anything else, it brings so obviously to the surface, the excellence in our students.

"Here we are, a school with an enrollment of only 1,200, yet we can be proud of 14 All-Americans in different sports, with two athletes that are the best in their field.

"It's the kind of marvelous mystery one cannot but enjoy working with. I'll do anything I can to foster and support our athletic program — and I will certainly be at every basketball game I'm able to attend."

The dynamic Webb is a constant man in motion, traveling around the country and speaking in his entertaining and moving style.

Webb received his early education at King's private school and Cambridge University. Spending eight years as a British Royal Navy officer, Webb's last three were as Commanding Officer of the ship, H.M.S. Switha.

Webb's interest in the ministry and higher education brought him and his family to the United States in 1958. He graduated Magna Cum Laude from Ohio Wesleyan in 1960 and earned a Master of Divinity degree three years later from The Methodist Theological School in Ohio.

Webb's next degree came at Drew University — site of his rugby coaching — with a doctorate in 1966. He went back to The Methodist Theological School where he worked as a theology and literature professor, vice president and chief development officer.

Webb has found the additional time to author two plays and publish several articles. He and his wife Renee have five children and eight grandchildren.

## WALT STEVENS

### Athletic Director

Walt C. Stevens Jr., endowed with an extreme background as an administrator, was appointed director of athletics at Centenary College August 11 and immediately began the task of restructuring the athletic department.

Three words, class, dynamic, and enthusiastic, can best describe the new director. A native of

Macon, Georgia, the 52-year old Stevens was a graduate of the United States Naval Academy in 1951. He later earned a Masters Degree from Louisiana Tech and spent 30 years in the Air Force.

While in the Air Force, Stevens served in the National Military Intelligence Center at the Pentagon in Washington D.C. In addition, he served on the Staff for Intelligence at Barksdale Air Force Base until his retirement February 1, 1981.

"I always wanted to get back into athletics," the new director stated. "I am real happy to have the privilege to work with such a fine organization here at Centenary. Centenary College is going to maintain a strong heritage in college athletics while I'm here. Centenary can become the envy of every College in the country of its size."

Stevens originally came to Centenary in February and went to work as the Development Counselor in charge of raising academic and athletic scholarships at Centenary. He was very successful and showed excellent administrative skills.

From 1957-60 Stevens coached freshman basketball and baseball at Georgia Tech. He studied under the legendary Bobby Dodd who coached at Georgia Tech for 30 years.

Walt is married to Caroline Stillwell Stevens. They are the parents of five children. Dr. Walt Stevens III, William Stevens, Norma Buteau, Paula Stevens, and Katherine Stevens. They have two grandsons, David Buteau Jr., and William Stevens.

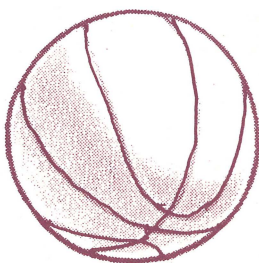

## JOE ST. ANDRE' Head Coach

When one sits down and visits with Centenary's women's basketball coach Joe St. Andre', you get the impression Joe knows exactly where his priorities lie. Referred to by many of his friends as the "Saint", Joe, 34, came to Centenary last March to implement a successful Ladies basketball program.

A graduate of Northwestern in 1969 with a B.S. in mathematics, Joe began coaching in the fall of 1970 at Haughton High School in Bossier Parish. While at Haughton, St. Andre' coached basketball and taught math. After two years Joe accepted the Athletic Director's position at Princeton Junior High. In addition, St. Andre' coached football, basketball, and track. In 1977 St. Andre' left Princeton and took a leave of absence to work on his masters. And in the following spring he earned a Masters in education at Northwestern. Afterwards St. Andre' went into private business on a full-time basis, until accepting the women's head basketball position at Centenary in March.

## ABOUT THE COLLEGE...

A liberal arts college, Centenary has always had a strong academic reputation and offers a superior education for students capable of intellectual leadership. An excellent student-teacher ratio of 13-1 means much more individual attention for the student.

Centenary College was founded in 1825 and is the oldest chartered institution of higher learning west of the Mississippi River.

It is a full-accredited, four-year liberal arts college affiliated with the United Methodist Church. Students select three courses in each of the four major divisions of the College — humanities, natural sciences, social sciences and fine arts.

Centenary's departments are individually outstanding. The college choir is known on an international level, its theater and music departments are increasingly popular in the north Louisiana area and Centenary's school of church careers is very distinctive.

Other departments also have high credentials. Of pre-med students at Centenary, over 80 percent qualify for medical school (the national average is but 39 percent), and 100 percent of its pre-law students get accepted to law school. The foreign language and geology departments are both improving, while the graduate program and freshmen class at Centenary have both shown increases.

As one can determine, Centenary is an important asset to Shreveport, the center of the Ark-La-Tex region.

Situated in Northwest Louisiana — 20 miles — to the Texas state line, Shreveport's greater area numbers over 350,000.

The city plays annual host to the Holiday-in-Dixie Festival (April), the Red River Revel (September) and the Louisiana State Fair (October).

"Next door" to Shreveport in Bossier City are Barksdale Air Force Base and Louisiana Downs. The race track facility in Bossier is one of the nation's fastest-growing thoroughbred types of its kind.

The Shreveport area is definitely an experience to enjoy — and so is Centenary.

## THE GOLD DOME

The geodesic Gold Dome is a landmark located just south of the main Centenary College campus. Besides housing the Centenary basketball team, the Gold Dome is a multi-purpose facility, constructed at a cost of \$1.3 million plus equipment.

With a seating capacity of 4,000, including cushioned armchairs on the upper level bleachers encircling the court, the Gents have a home court seldom equaled by schools of its size.

Unique features of the structure include a Tartan floor, indirect lighting and the attractive gold anodized aluminum dome. The completely air-conditioned facility contains office space for the athletic and physical education departments, two classrooms, including one of the theater variety, and four large carpeted dressing rooms.

Like the building itself, the basketball court will be a multi-purpose area, easily converted into two cross-court basketball courts, or eight volleyball courts, or 16 badminton courts. At the east end of the building are two championship handball courts, complete with spectator windows.

The dome was designed by the Shreveport architectural firm of Somdal-Smitherman-Sorensen-Sherman and Associates. Whitaker Construction Company of Shreveport was the contractor, while the Temcor Company of California erected the gold-colored dome.

## AIAW DIVISION II

For now the Centenary Lady basketball team will have to be satisfied with Division II status in the AIAW. The Ladies will compete in Region Four, to include Arkansas, Oklahoma, Louisiana and Texas. In all, 30 teams from the four-state area will compete at the Regional Tournament March 11, 12 and 13 at South-west Texas State.
